[a] The figures for 1841, as published in *Gazette*, are full of errors which cannot now be corrected, and should therefore be used with great caution.

[b] The figures (Persons) for 1847 include 2246 military, women, and children; also 3739 male convicts on public works.

[c] „ „ 1851 „ 9 „ „ „ „ 568 convicts, sex not distinguished.

[d] „ „ 1857 „ 630 „ „ „

[e] The discrepancy in the number of brick and stone houses in 1870 and 1881 arises from a large number of residents in country districts failing to give definite descriptions.

[a] In this table deaths occurring in the Public Hospitals in Hobart and Launceston are referred to the district in which the cause of death originated. [b] This District embraces the New Town Charitable Institution, in which aged persons from all parts of the State are assembled. [c] Deaths occurring at sea or on board foreign ships in port have not been included [d] Preventable causes embrace deaths at all ages from all causes excepting those classified as due to "Senility" or "Old Age." [e] Corrected for changes in age-distribution. [f] Indicates deaths under 1 year per 1000 births. [g] Computed in accordance with the recommendation of the Conference of Statisticians at Hobart, January, 1902, viz.—That the Age-groups be—Under 1 year, 1 to 20 years, 20 to 40 years, 40 to 60 years, 60 years and over; and that the Population of Sweden (Census 1890) be taken as the Standard. [h] The detailed rates for these divisions are omitted, as the fluctuations between single years when numbers are small give unsatisfactory results.

† The amounts to the credit of depositors in the joint stock companies' Savings Banks do not appear to include interest on deposits.

†"CONSUMABLE WEALTH."—The annual value of Consumable Wealth produced in Tasmania during the year 1913-14—by the combined agency of local labour, skill, and all other animate and inanimate auxiliary instruments of productive physical energy—is estimated to approximate to £8,750,000. This is equivalent to £106 per annum per breadwinner [includes capitalists, entrepreneurs, and wage-earners]. At 3½ per cent. this annual contribution of Consumable Wealth represents an absolute present capital value of £250,000,000. It is estimated that about one-seventh of the annual value is absorbed in the maintenance, renewal, and fresh creation of the necessary auxiliary tools and instruments of production and transport. The remaining six-sevenths are absorbed by breadwinners and their dependents, representing a sum of £7,196,243, or 5s. 9¾d. per breadwinner per working day. From an economist's point of view each breadwinner may be rightly regarded as one of the most essential instruments of production. If therefore we regard £92, as being the average annual effective claim of each breadwinner unit, it follows that each of the latter possesses an asset which, calculated at 3½ per cent., represents a capital value of £2628. ‖ Estimated. § Production (Exports not available). ** Up to year 1901 the revenue of State Departments, since transferred to Commonwealth, was included. *** Not including (£2,083,666) value of material used or worked up.
